

DATACARD® TRUCREDENTIAL™ SUITE SOFTWARE

TRUCREDENTIAL™
SUITE

PROTECT WHAT'S IMPORTANT TO YOU

TruCredential™ suite meets the needs of your unique program.

Possible Applications Include:

- Student, faculty and visitor IDs
- Employee, contract and visitor badges spanning small to large organizations
- Patient and staff healthcare IDs
- Credentials for local government programs
- Membership and customer loyalty cards, transit passes

Design, Issue and Manage Credentials — Anywhere, Anytime

Datacard® TruCredential™ software suite is an easy solution for creating, issuing and managing secure IDs and credentials. It empowers organizations to meet a wide range of application requirements, from basic photo IDs to high-assurance credentials. It offers a variety of editions for large and small organizations. With TruCredential suite, you can easily scale from a single workstation or user to a multi-workstation, enterprise-wide application with more functionality.

Great User Experience. Setting up card designs and printing them to an issuance device has never been easier. An intuitive step-by-step workflow makes issuing cards fast and simple. The software features effortless drag-and-drop functionality and the ability to customize the process to fit your needs.

Out-of-the-Box Integration. Get up and running quickly. TruCredential software easily integrates with your existing database or ERP system. A software development kit is available for custom applications.

Configurable. Our configurable system allows you to create custom workflows for your operators. Operators can then work independently with these established templates and process flows. You can also create unique user profiles to enhance the security of your program and give appropriate access to the right people

Technology That Grows with Your Organization. One technology platform can address both basic card issuance and integrated solution segment needs. A future-ready technology supports your features and scalability as your needs grow.

Datacard®

TRUCREDENTIAL PORTFOLIO FEATURES

WORKS WITH THE LATEST TECHNOLOGY

All editions of TruCredential software work with the latest technology including Windows 10, and Microsoft Edge.

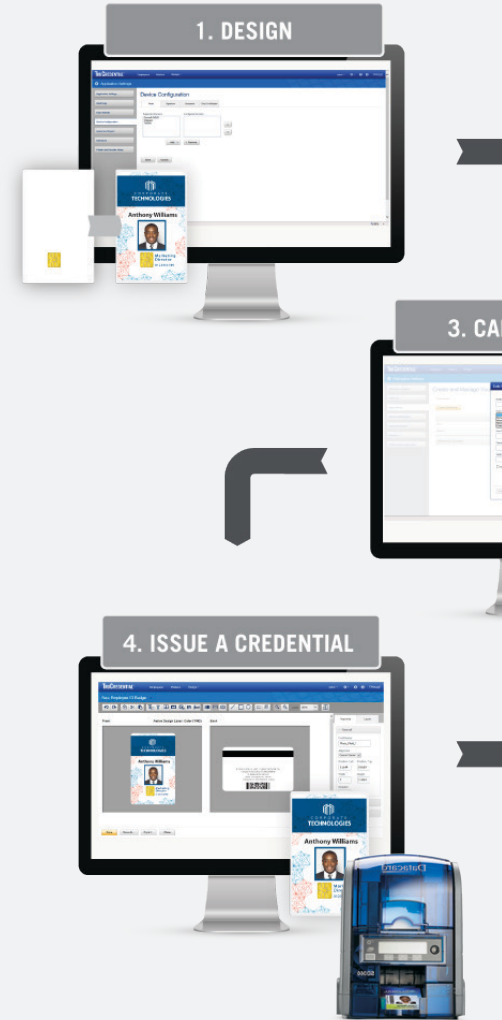

PART OF A COMPLETE SOLUTION

TruCredential software is engineered to work as part of an integrated system with Datacard printers, supplies and support. It also supports 3rd party systems.

SEAMLESS REPORTING CAPABILITIES

Design reports with custom layout, header, footer and data fields. Create and run reports. Export report output in PDF.

TRUCREDENTIAL CAPABILITIES

FOUR POWERFUL EDITIONS. ONE COMMON PLATFORM.

Basic Card Issuance

TruCredential EXPRESS

Take your first step into the world of ID card designing and printing with the entry-level TruCredential EXPRESS.

TruCredential PLUS

This software builds on the functionality of TruCredential EXPRESS to provide the fundamental tools for essential ID card and credential designing and printing such as reporting capability and SQL integration.

Integrated Solutions

TruCredential PROFESSIONAL

Get even more capabilities with this highly scalable edition that builds on the functionality of TruCredential PLUS to meet most needs. The professional edition allows for concurrent users and centralized management of users and data.

TruCredential ENTERPRISE

The most advanced, scalable, credentialing software in the suite, ENTERPRISE edition includes all previous edition features plus sophisticated design capabilities for ultimate program flexibility. It also integrates with access control and HR systems.

ADDITIONAL FUNCTIONALITY WITH INTEGRATED SOLUTIONS EDITIONS OF TRUCREDENTIAL SOFTWARE

PRE-BUILT SMART CARD CONFIGURATIONS

Pre-built configurations for smart card issuance are available and easy to set up through the user interface.

SUPPORTS UP TO 100 CONCURRENT USERS

No need to purchase licenses for every workstation. With TruCredential software, you only pay for operators who use the software at the same time. Up to 100 users can work simultaneously.

EASY INTEGRATION WITH EXISTING DATABASES

TruCredential software integrates with databases that your organization already has, including Microsoft Access, SQL Server, DB2 and Oracle.

KEY ADVANTAGES OF TRUCREDENTIAL INTEGRATED SOLUTIONS

Integration solutions of TruCredential software (Professional and Enterprise editions) allow large organizations to easily deploy and manage their credentialing program across a network of work stations.

CENTRALLY INSTALL AND DEPLOY ACROSS THE NETWORK

Install and license TruCredential software on one server and deploy it across your entire network without the need for a physical dongle.

MANAGE ALL OF YOUR DATA AND USERS FROM ONE CENTRAL SERVER

Collect and manage data from all of your satellite devices on one central server. Grant and restrict user access to specific functions. Offer self-service password resets.

CUSTOMIZE TRUCREDENTIAL TO MEET YOUR REQUIREMENTS

TruCredential workflows can be modified to create event triggers or data transformation with your own custom code.

SYSTEM REQUIREMENTS

Operating system: Microsoft Windows 7 / 8.1 (32-bit or 64-bit) & Windows 10

Web browser: Chrome, Internet Explorer version 11 & Microsoft Edge

Memory: 4 GB (8GB recommended)

Hard Drive: 1 GB of computer drive space

Screen Resolution: 1360 x 768

TRUCREDENTIAL STANDARD FEATURES

Credential Design

- Front and back card design, pre-designed card templates
- Variable/static text field, photograph field, variable/static graphic field, date field
- QR code, magnetic stripe code, bar code support

Workflow

- Text field, static text field, static graphic field, date field, print count field
- Auto-sequence field, check box field, List field
- Text field mask, field option – read only, hidden, mandatory, searchable

Smartcard Stock Supported

- MiFARE Classic
- MiFARE DESFire EV1
- HID Prox
- HID iClass

Smartcard Reader Supported

- Identiv
- DUALi (single-wire)
- DUALi (two-wire)

Database & Data Import

- Import data from CSV, ASCII file
- Text field, Static text field, Static graphic field, date field, print count field

Photo Capture

- File input, TWAIN, Microsoft Video for Windows

Languages Support

- English, French, German, Japanese, Portuguese (Brazilian), Simplified Chinese, Spanish
- Localization utility for other languages
